

Example Opponent Report

CF Real Blanco vs Atletico Verde - 2026-01-02 00:00:00

Tactical state mix expected

- Opponent high press: 67 sequences (90%)
- Final-third attack vs compact defence: 7 sequences (10%)
- Opponent low block: 0 sequences (0%)
- Build-up vs narrow front two: 0 sequences (0%)
- Defensive transition after loss: 0 sequences (0%)
- Wide overload: 0 sequences (0%)
- Central progression: 0 sequences (0%)
- Neutral build-up / rest state: 0 sequences (0%)

Recommended adjustment

Against **Opponent high press**, adopting **s third man combination** historically created **+0.011** expected possession value per possession** (95% CI [+0.009, +0.013]) with **high confidence**, based on 1007 comparable sequences.

Risk: Medium execution risk; combinations fail under intense pressure without strong first touches.

Execution: Pattern - rehearsed combinations between three players.

Applicability limits

Event-based estimates only; no tracking data. Validation is chronological and league-specific.
